

CSA Small Donor Committee and Committee for Physician Anesthesia Care (PAC)

In order to change Policies, we need to begin LOCALLY – we need your support to Educate the Colorado General Assembly to develop policies that reinforce quality Anesthesia care.

The candidates that we support with your contributions to both the CSA Small Donor Committee and the PAC share the following beliefs:

- Recognize that patient safety is vital in policy making
- Recognize the delivery of anesthesia is a medical delegated function and will support policies that ensure patient safety by support this position
- Recognize Medicaid reimbursement structure for anesthesia in Colorado is flawed and needs to be reviewed to allow parity in reimbursement among all physician providers

Definition of a Small Donor Committee:

Small donor committees can only accept donations from natural persons and contributions are limited to \$50/per person/per calendar year. Small donor committees have higher limits on support for state candidates than Political Action Committees, PAC under Colorado Law. For a small donation, you can help support candidates that support quality anesthesia care in our state.

Committee for Physician Anesthesia Care is a Political Committee

A political committee differs from a Small Donor Committee in the amount of individual contributions allowed annually and the amount of the campaign contribution allowed to be distributed. The Committee for Physician Anesthesia Care donations is limited to \$725/per contributor/per election cycle. An election cycle is 2 years and begins immediately at the conclusion of each Senate and House election.

Physicians' supporting quality anesthesia care requests your support.

Checks can be made in payment to:

CSA Small Donor Committee and/or
Committee for Physician Anesthesia Care and mailed to:
